Thank you for supporting the CPIA

What you can do to help improve our water quality:

- Utilize rain barrels and build rain gardens on your property to prevent storm water runoff from reaching the lake.
- Remove Asian Clams and Chinese Mystery Snails whenever possible.
- Properly maintain your septic system (pump it every 2 years at least).
- Do NOT fertilize your lawn.
- Monitor boats accessing the lake to make sure they are free of Milfoil and other invasive species.
- Remove any floating Milfoil from the lake, and report locations of live Milfoil to info@cobbettspond.org
- Pick up after your pets.
- Do not feed ducks or geese, and discourage their overall presence.

Report offenders. http://des.nh.gov/organization/commissioner/pip/report_complaint.htm
